September 6 – An Update on the Advances in Type I Diabetes – In Memoriam of Susan Clark, MD
Bruce A. Buckingham, MD
Professor of Pediatrics (Endocrinology)
Lucile Salter Packard Children’s Hospital, Palo Alto, CA
Outcomes: Physician learners will be able to:
1. Describe the benefits and indications for the use
   of new technologies in the treatment of Type I Diabetes.
2. Briefly counsel patients with newly diagnosed or suspected
   Type I Diabetes with regard to the marked decrease in the
   risk of short-term complications and improved long-term
   prognosis that has occurred as the result of new medical
   technology.

September 13 – EXTENDED GRAND ROUNDS: Yellow Zone Management and the Asthma Action Plan
8:00 AM – 9:30 AM – Buffet Breakfast
Stanley Galant, MD
Pediatric Allergy/Immunology,
CHOC Children’s Specialists
Olga Guijon, MD
Pediatrics, CHOC Children’s Hospital
Outcomes: Physician learners will be able to:
1. Provide instructions, based on the best available evidence, to
   guide patients how to treat their asthma during acute loss of
   control in the home setting, and when to contact their
   pediatrician or go to an ED.
2. Put in place Asthma Action Plans for all patients with asthma.

September 20 – Pediatric Chest Pain or Syncope: What do the Guidelines Say?
Wyman Lai, MD
Pediatric Cardiology, CHOC Children’s Specialists
Outcomes:
1. General pediatricians will be able to appropriately decide which
   patients with chest pain or syncope should be referred to cardiology,
   based on a targeted history, physical exam and the selective use of
   an ECG.
2. Cardiologists will choose additional studies for these patients with
   chest pain or syncope based on the latest available evidence.

September 27 – ACL Injuries in Adolescents
John Schlechter, MD
Pediatric Orthopedic Surgery, CHOC Children’s Hospital
Outcomes: Physician learners will be able to:
1. Diagnose ACL injuries and determine when to refer to a specialist.
2. Counsel patients on how to prevent ACL injuries.
3. Counsel patients on surgical and non-surgical treatment options.
