

**October 11 – The Sherwin A. Gillman, M.D.
Honorary Lecture Series: Atopic Dermatitis****Mark Boguniewicz, MD**

*Professor, Division of Pediatric Allergy-Immunology,
Department of Pediatrics, National Jewish Health and
University of Colorado School of Medicine*

Outcomes: Physician learners will be able to:

1. Describe how the current understanding of skin barrier and immune abnormalities in patients with atopic dermatitis guides current therapeutic approaches.
2. Design an appropriate management plan for patients with atopic dermatitis.
3. Counsel patients about the role of food allergy in atopic dermatitis, and selectively refer to allergy, or perform allergy testing, where indicated.

October 18 – Pediatric Concussions: An Update**Nicholas Peterson, MD**

UCI/CHOC Resident, PGY-3

Outcomes: Physician learners will be able to:

1. Appropriately evaluate and manage a child on the field who suffers a head injury.
2. Use a focused physical exam and validated sport assessment tool to manage a patient with a concussion.
3. Implement guidelines for patients with concussion that allows a graduated return to learning and return to play.

October 25 – HIV Update: Pre-Exposure Prophylaxis Protocols**Harvey Triebwasser, MD**

Director of Adolescent Medicine, CHOC Children's Primary Care

Outcomes: Physician learners will be able to:

1. Discuss the evidence for efficacy and safety of pre-exposure prophylaxis in young adults and adolescents at risk for acquiring HIV.
2. Counsel patients at risk about these options, and prescribe medication and perform necessary lab testing.
