

How to Add Virtual Backgrounds to your Zoom Meeting

1. To download: Right click on link of the background image and select the “Save Target As...” function to save it to a folder on your computer.
2. Log into Zoom with your credentials.

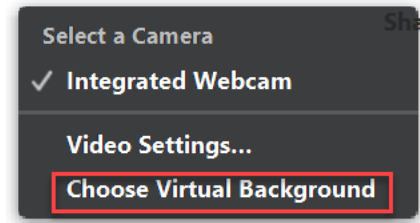

3. Start a new Meeting.

4. Click on your Video Settings.

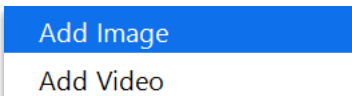

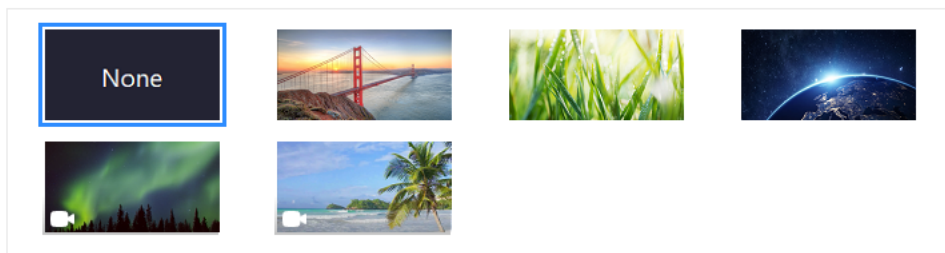

5. Choose Virtual Background.

6. Click the + icon and **Add Image** to add the backgrounds saved onto your computer (See Step 1)

Choose Virtual Background

7. Make sure to disable **Mirror my video**
