

## Recommended View for Telehealth Visits - Utilizing Zoom and PowerChart on a Single Screen

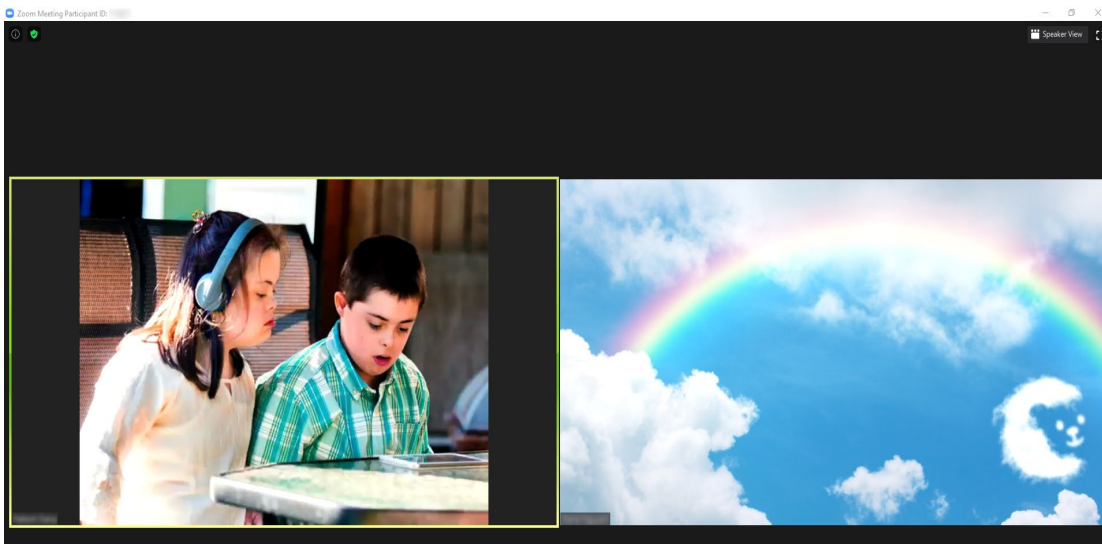

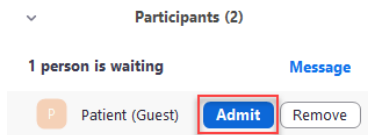

1. Sign into PowerChart.
  - a. Access patient chart.
2. Sign into Zoom.

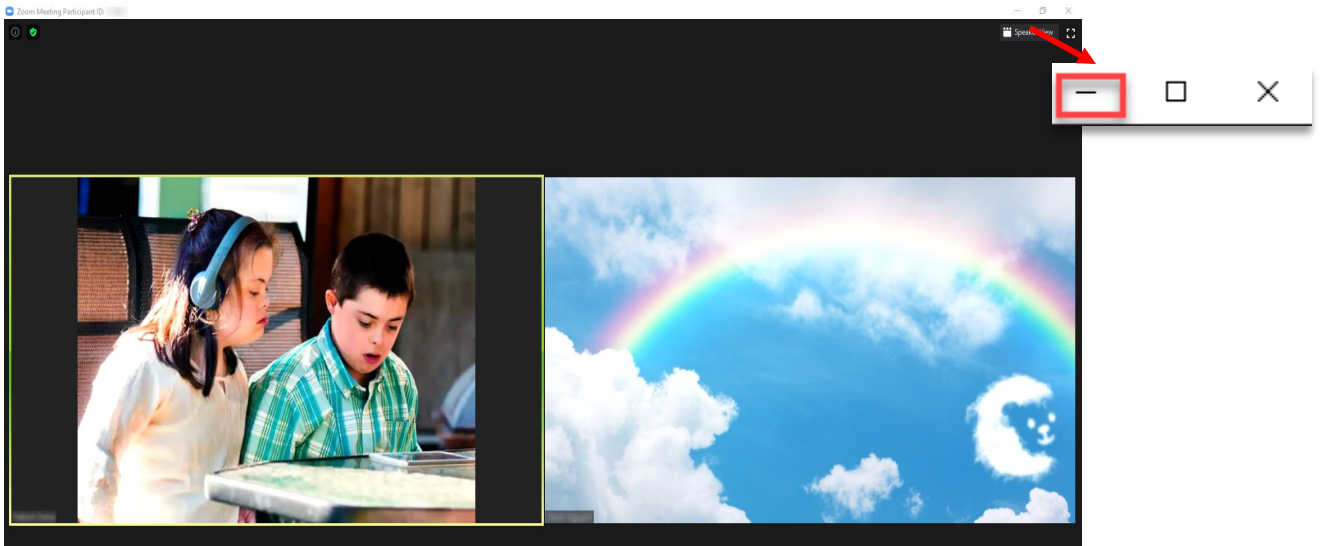

- a. Start New Meeting by clicking the orange icon with a camera.

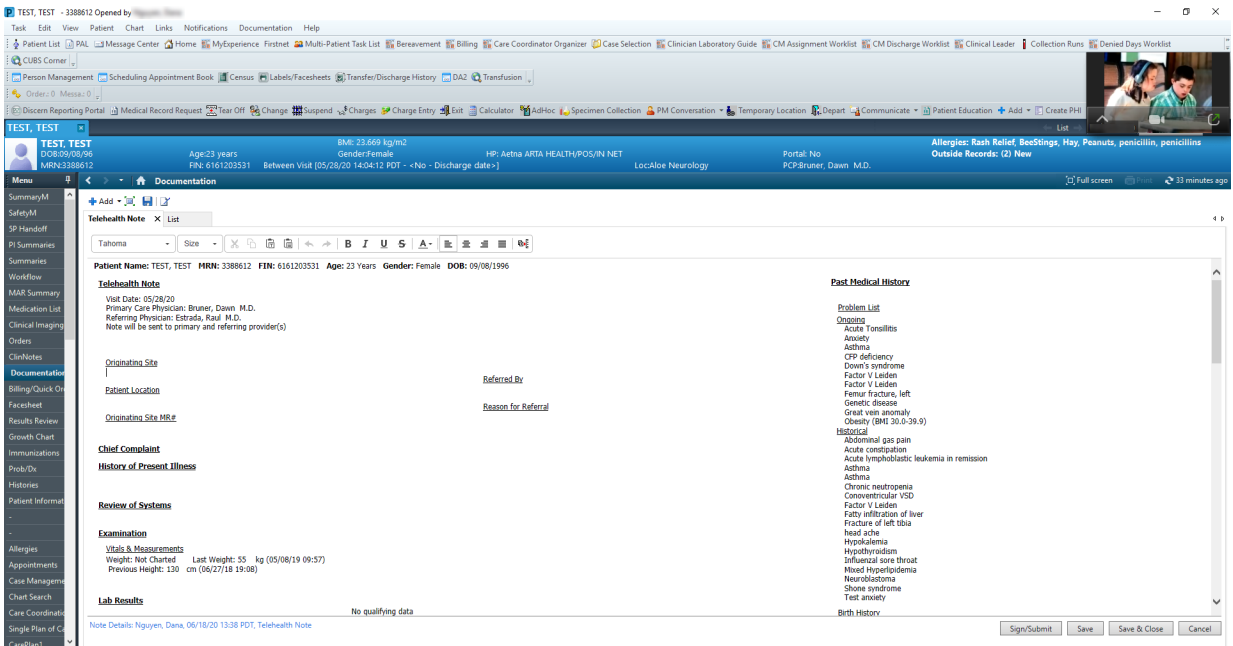

- b. Admit patient from Participants list. Greet the patient and assist with audio/video support if needed.

- When ready to document, minimize Zoom window to be able to see patient and patient's chart simultaneously by clicking the icon in the upper right-hand corner.

- After minimizing Zoom, your screen should look like:

- Document in patient's chart as needed. Zoom window remains in front of all other applications.
- When finished documenting, open Zoom back to full screen by clicking on the icon with the green arrow.
