Our highly experienced, board certified pediatric neurosurgeons provide innovative and efficient care to improve the quality of life for children and their families. While every effort is made for nonsurgical intervention, neurosurgery can often be the answer to saving or improving a child's life.

Our board-certified neurosurgeons bring the highest levels of expertise and experience to even the most complex disorders of the brain, spine and central and peripheral nervous systems. We are pioneers in some of the most innovative neurosurgery procedures, including minimally invasive ablation of intracranial tumors and epileptogenic lesions, temporal sclerosis and radiation necrosis; endoscopic removal of brain tumors and cysts; cranial remodeling; and treatments for traumatic brain injuries. We were the first in Orange County to perform an endoscopic third ventriculostomy and among the first to offer unique treatments such as baclofen pumps for spasticity and vagus nerve stimulation for seizures.

WHAT WE TREAT

- Basilar invagination syndrome
- Birth defects
- Brachial plexus nerve damage
- Brain cysts
- Brain tumors and infections
- Brain and spine anomalies
- Cerebellar Herniation Syndrome
- Cerebral palsy and spasticity
- Concussion and head/spinal cord trauma
- Congenital and acquired brain anomalies
- Cranial anomalies
- Craniosynostosis
- Epilepsy, with surgical alternative
- Hydrocephalus
- Infants with abnormal head size
- Moyamoya disease
- Plagiocephaly
- Sacral dimples
- Spina bifida
- Spinal anomalies
- Spinal dermal sinuses
- Spinal instability
- Spinal osteomyelitis
- Tumors of the brain and spine
- Vascular brain anomalies

PROGRAMS AND SERVICES

- Brachial Plexus Program
- Comprehensive Epilepsy Program
- Concussion Clinic
- Maternal fetal evaluation
- Neurofibromatosis Program
- Neuro-oncology Treatment Program
- Plagiocephaly Program
- Spasticity Clinic
- Spina Bifida Clinic
- Tuberous Sclerosis Clinic
OUTPATIENT SERVICES OFFERED

• Misshapen head clinic
• Evaluation of infants with large heads, small heads, misshapen heads
• In-office ultrasounds
• Plagiocephaly clinic
• Prenatal counseling for parents regarding fetal anomalies
• Second opinion for all pediatric neurosurgery issues

MAIN OFFICE

CHOC Children’s Specialists Neurosurgery
St. Joseph Medical Tower
1010 W. La Veta Ave., Suite 710
Orange, CA 92868
Scheduling: 714-509-7070
Fax: 714-509-7074

SPECIALTY CARE PHYSICIAN CONCIERGE SERVICE

Our physician concierge service expedites physician to physician communication with CHOC Specialists.
To connect with a physician concierge representative, please call 714-509-4013.
