

## Hematology

Our highly experienced, board certified Pediatric Hematologists provide compassionate and innovative care to improve the quality of life for children and their families.

### We commonly treat

- Anemia, including sickle cell anemia, thalassemia, iron deficiency and lead toxicity
- White cell and immune deficiency disorders
- Aplastic anemia
- Bone marrow failure syndromes
- Thrombocytopenia
- Vascular malformation/hemangiomas
- Platelet disorders
- Coagulation abnormalities, hemophilia, Von Willebrand's disease, rare bleeding disorders such as Factor 13 deficiency
- Excessive clotting disorders, thrombophilia, deep venous clots, pulmonary embolus or stroke
- Acquired bleeding and clotting disorders
- Prevention of bleeding and clotting problems, with particular experience for patients on cardiopulmonary bypass

### Services offered include

- Multidisciplinary clinics for immune deficiency disorders, red cell disorders and iron overload complications, vascular malformations
- Thrombosis clinic and anti-coagulation monitoring programs
- Bone marrow transplant for non-malignant disorders
- Long-term care and late effects monitoring for bone marrow transplant patients
- Referral center for hemoglobinopathies from Newborn Screening Program
- Federal HRSA and MCHB referral center for Hemostasis/Thrombosis Program
- Regional referral center for the treatment of anemia caused by ingestion of lead
- Outpatient care with access to short-term infusions for blood product transfusion, immune therapy for autoimmune and immunodeficiency disorders
