

Otolaryngology

Head & Neck Surgery / Ear, Nose & Throat

Our highly experienced pediatric otolaryngologists provide innovative and efficient care to improve the quality of life for children and their families.

We commonly treat

- Tonsil and adenoid disorders including obstructive sleep apnea
- Airway disorders
- Congenital and acquired hearing loss
- Acute and chronic ear infections
- Middle ear disorders
- Congenital and acquired masses of the head and neck
- Speech disorders
- Swallowing disorders
- Foreign bodies of the aerodigestive tract
- Cleft lip and palate

Services offered include:

- Tonsillectomy and adenoidectomy
- Placement of ear tubes
- Complex open and endoscopic airway reconstruction
- Chronic ear surgery including tympanoplasty and cholesteatoma
- Cochlear implantation
- In-office audiology for hearing evaluation
- Reconstruction of cleft lip and palate
- Surgical treatment of velopharyngeal insufficiency
- Image-guided sinus surgery, including balloon sinuplasty
- Resection of congenital head and neck masses
- In-office laryngoscopy and stroboscopy for airway and voice evaluation
